

Mikrolinna Oy

Educational programs for comprehensive schools!

MIKROLINNA HAS TOP-LEVEL PROGRAMS!

www.mikrolinna.fi

Our educational programs are available on the internet - no installations are needed and the software can be used anywhere, anytime!

User friendly, improve students' participation and total learning experience.

The software does not require any additional hardware devices.

Our educational programs

- are easy to use and contain explicit instructions
- inspire, motivate and give variety to teaching
- enable differentiation and repetition (exercises from different levels)
- make teaching more many-sided and increase the efficiency
- consist of exercises in which the numerical values are renewed automatically
- provide teachers flexibility and efficiency in monitoring and assisting students
- not just ordinary calculations, but also a lot of problem solving
- tips to help solution with graphics, animations, texts, diagrams, formulas etc.
- solution saves student results, which can be reported in several ways
- teacher can select which exercises students can do
- easy to translate into other languages and already available in Swedish, Norwegian, English, Sami language and Lithuanian
